Dominic Trujillo-Grissom

W04 Project: Website Subject

Subject:

My subject will be on anime and manga,

Description:

I want to make a home page that will look cool and have some info and characters on it. Then I want to make a top-rated page where my son and I can show off our favorite shows. Lastly, I will have a forum/blog page for other people to interact and share ideas.

Reason:

My oldest son and I are big fans. We use this as a way to bond and share time together. He has been one of my biggest fans during this course. He loves to see the sites I have made and he will be super excited to work with me on this one.
